professionals co-sponsored by Seattle Central Community College &**

SEATTLE CITY LIGHT

Sustainable Building Advisor Certificate Program Information Meeting

**Tuesday
May 8th, 2003**

**Seattle Central Community College
1700 Broadway, Main Building, Room 1110
5:15 –6:15 pm**

**Please RSVP to
206-587-3841**

Don't miss this opportunity to learn how you or the members of your organization can build a solid foundation in the sustainable building approach through a course designed especially for working professionals by sustainable building experts.

Learn from course planners, graduates, and current students how the SBA course can help you to:

- Identify and articulate key sustainable building practices.
- Apply LEED, Built Green, and other relevant criteria and established guidelines.
- Evaluate the applicability of sustainable building measures for specific projects.
- Assess the credibility of information available on sustainable building products and services.
- Develop a network of regional resources

**Free Parking Reserved at SCCC Parking Garage (Pine & Harvard) when you RSVP. Light
Refreshments will be served.**
